

PRICE SHEET

For custom-made wedding gowns:

Price is determined by a number of factors such as complexity of design, type of embellishment and fabric and trim costs and is therefore quite variable. The list below is general and includes all labor, fabric and fitting appointments.

- few gowns will be less than \$1800
- most will be between \$2400 and \$2800

For wedding gown alterations:

Alterations also vary greatly depending on the complexity and number of areas which require adjusting.

- hemming and bustling most often is \$150- \$250
- bodice alterations typically are \$120- \$200
- restyling necklines, adding sleeves, embellishments, etc starts around \$120

I respect your budget and will do my best to work within it. I will provide you with a price before starting any work and I will not exceed that price without your permission.
